School News at Your Finger Tips

Team work divides the task and multiplies the Success.

WHEREVER LIFE PLANTS YOU, BLOOM WITH GRACE

Your religion, your status in life, your race, your skin colour, your political views, your culture DOES NOT decide your goodness. How GOOD you are as a person depends upon, how GOOD you treat others. You might grow up to be a successful doctor, a lawyer, a chef, an architect etc. etc. Yet you face ups and downs, situations which hold you back, when you would feel that others are taking advantage of you. Instead of taking each and every thing or action that happens to you, as a personal attack on your character, remember just one thing - YOU ARE A GOOD HUMAN BEING.

No matter what people say about you, keep doing GOOD things for others out of GOODNESS of your heart and not just to please anyone because you must be true to yourself. It is important to stay honest to who you are, in order to serve as a role model for those who look up to you. Even though you may not realize it, you serve a huge significance in someone else 's life, where they feel as if they have been influenced by the person you are to the point where he/she aspires to be as GOOD as a person as YOU are.

GOODNESS improves our quality of life at work place as well as in the community. It brings people together. Rightly said that it is more important to be a GOOD human being than a successful person.

May your life be shaped by your thoughts and your deeds.

Ms. Nirmala Yadav

Co-ordinator (Senior Wing)

INVESTITURE CEREMONY

'Leaders are not born, they are made', following this motto the school recently held the Investiture Ceremony for the session 2018-19. The enthralling event commenced seeking the blessings of Goddess Saraswati followed by roars of drumbeats, with the new leaders marching forward to discover the greater horizons of leadership. With great pride, the Student Council members took the oath to perform their duties with utmost sincerity. Later they were conferred upon with sashes and badges by the Principal and coordinators of the school. Speaking on the occasion, the Principal Ms. Agalya Venkatesh congratulated the students and emphasised on the values of discipline, dedication and perseverance to be successful in life. The ceremony concluded with the National Anthem and the Students Council went back with a great sense of responsibility and humility.

INDEPENDENCE DAY CELEBRATION

The school celebrated Independence Day with unprecedented patriotic fervor on August 14, 2018. The gamut of activities held on campus consisted of special morning assembly, poetry recitation, patriotic songs and dances. The wing in-charge, Ms. Manika Girdhar addressed the gathering and reminded it of the sacrifices made by our great freedom fighters. The assembly dispersed after the National Anthem.

CELEBRATING THE SACRED BOND

Rakshabandhan was celebrated in the school with fervour and gaiety. The School organized a special event to familiarize the students with the customs, rituals and significance of this festival.

WE BOW DOWN IN GRATITUDE

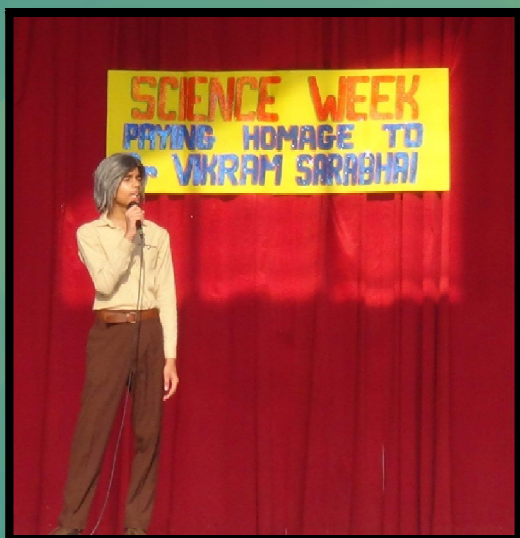

MVN-17, Faridabad, celebrated Teachers' Day with zest and zeal on September 5, 2018. A special assembly was held in which the students paid tribute to their teachers through poems and songs. Teachers sportingly played the games organised by the MVN Students' Council. The Principal, Ms. Agalya Venkatesh appreciated the sincerest efforts of the teachers in playing a catalytic role in the holistic development of every student.

IMBIBING THE SPIRIT OF INQUISITIVENESS

The important thing in science is not so much to obtain new facts as to discover new ways of thinking about them.

Keeping this in mind and to pay homage to Dr. Vikram Sarabhai, Science Week was observed at the school with great enthusiasm. A variety of competitions were conducted for the classes VI-X which included debate, quiz, poster making competitions and Role play. The display boards became the medium to enrich students with some wonderful facts of the Science world.

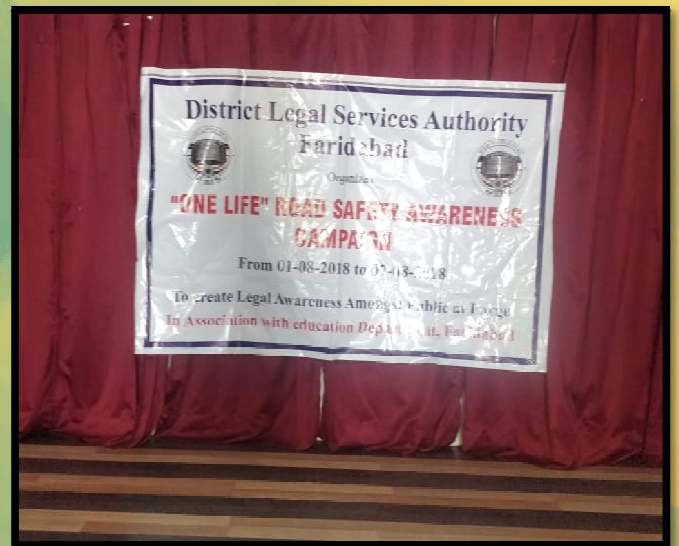

हिंदी सप्ताह प्रार्थना सभा

3 अगस्त, 2018 को हिंदी सप्ताह के उपलक्ष्य में प्रार्थना सभा आयोजित की गई। तुलसीदास के प्रसिद्ध दोहे "परहित सरिस धर्म, नहिं भाई परपीड़ा सम नहि अधिमाई।।" के द्वारा प्रार्थना सभा का शुभारंभ हुआ। समूहगान, रामचरितमानस की चौपाइयों और प्रेरणास्पद नाटक के माध्यम से परोपकार का संदेश छात्रों तक पहुँचाने का प्रयास किया गया। परोपकारी मनुष्य स्वभाव से ही उत्तम प्रवृत्ति का होता है। भटके को राह दिखाना, समय पर ठीक सलाह देना, सामर्थ्य होने पर दूसरों की शिक्षा, भोजन, वस्त्र, आवास व धन से सहयोग करने का संदेश इस लघु नाटिका द्वारा दर्शाया गया। सभी छात्रों ने करतलध्वनि के द्वारा छात्रों का उत्साहवर्धन किया। छात्रों के योगदान से कार्यक्रम पूर्णरूप से सफल रहा।

SEMINAR ON ROAD SAFETY

In collaboration with the District Legal Security Authority of Faridabad, the school held a seminar on 'Road Safety' for classes XI-XII on 8th August 2018 for the students. The main objective was to spread legal awareness amongst students at large. The volunteers Mr. Sanjeev and Ms. Deepshikha addressed the students and shared their knowledge about the Road Safety Act and the rules and regulations to be followed while driving or walking on the road.

ILLUMINATING THE YOUNG SOULS

The students of class XII, visited Prayas – A Social Welfare Society. The school aims to sensitize its students towards children and women belonging to the economically weaker sections of the society. The students spent quality time with them, learning their sorrowful plight they pledged to help them in their own modest ways to empower the destitute lives so that they may live with dignity and respect.

SEWA PROJECT

Communities enjoy benefits far beyond the financial aspects when youth contribute to society projects. When youth volunteer, adults tend to volunteer too, resulting in a lifelong social wellness. The community gains a generation of young people who care about where they live and are willing to make a commitment to improvement. With the same aim the students of Class XII visited Gopal Sharma Modern Vidya Niketan School, Khambi, Palwal where they became a part of Social Empowerment through Work and Action (SEWA) project. The whole experience sensitized the students and helped them evolve as 'Sensible Humans'.

HELPING HANDS

Modern Vidya Niketan School believes that charitable activities are important to develop a sense of citizenship and to engender a broader sense of social responsibility among the students. Keeping this in mind the students of Class X were exposed to the power of philanthropy. They extended their helping hand with provision of emergency relief kits, i.e. water, dry rations & essential non-food items for the Kerala Flood victims.

ITIHAAS ANVESHAN 2018

Students of our school participated in the Annual Heritage based event – ITIHAAS and the students of IX and X bagged First Position in the category UDGAAR, for the 'BEST LYRICS AWARD'.

The event theme at ITIHAAS this year was – INCLUSION.

The students of MVN Sector- 17 chose to highlight the exclusion faced by the Transgenders and attempted to give voice to their legitimate demands and workout a way for their Inclusion in the mainstream society, through their Project Report and Song.

WORDS OF WORTH - II

(ENGLISH ELOCUTION COMPETITION)

Students participated in the English Elocution Competition held at Aravali International School on 25th July to test and further enhance their oratory skills. The following stood as winners:

SECOND PRIZE:- SANYA CHAUHAN (XI)

THIRD PRIZE:- KASHAA SWAMI (X)

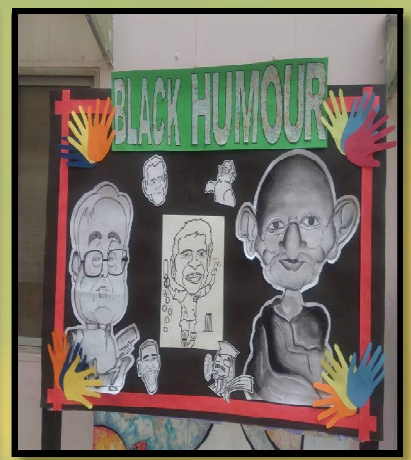

CONSOLATION PRIZE:- NAVYA SETHI

UBUNTU

"I am, because we are"

UBUNTU is a quality that includes essential human virtues of compassion and humanity. UBUNTU COHORT, a two-day confluence of ideas, was an attempt to recognize the spirit of learning by sharing. This non-competitive event where each participant was a winner and embarked on an uncharted journey where one helps the other to find their moorings.

AWAKENED CITIZEN PROGRAM

Modern Vidya Niketan Sector - 17 is taking an initiative to inculcate basic moral values in children. MVN realizes the tangible benefits of these training programs which will empower the students in their personal and professional life. As the schools are the centre of learning where the values such as harmony, peace, compassion and humility are promoted through various teaching learning aids. MVN Sector-17 shook hands with Rama Krishna Mission, New Delhi to incorporate this program through a well formulated content in the form of modules. Classes of Middle Wing are being benefitted through this program. The teachers of Middle Wing are sent every year to get initial training in the centre of Rama Krishna, New Delhi. The objective to initiate this program is to empower the youth with value education which will help them create new possibilities, work on solutions to the problems of life, prepare them to face challenges, adapt to the environment and above all character building. MVN Sector-17 whole heartedly extends its support to this three year graded value education program.

CREATIVE CORNER

“It is the supreme art of the teacher to awaken joy in creative expression and knowledge.”

Albert Einstein

MVN embraces creativity as part of learning and acknowledges the ingenious skills of the students. We proudly present some of our divergent thinkers' works:

WHY I STARTED CODING, AND THE JOURNEY AFTERWARDS

By Mehul Arora, X-A

I was always fascinated by computers. My first experience with a computer was when I was three years old. My dad would open up his laptop every day, and then work on it for hours. I was intrigued by the strange device, and would sit around him and observe. One day, he decided to let me play a game on it. He taught me with utmost patience. Within a few days, I had learnt to connect the internet, open Google and play games.

The Computer Curriculum at school helped me widen my interest, and helped me learn more and more about Computers. I developed a deep interest in it. When I was in class 4, I took part in the LOGO language drawing competition and won the first prize, and that was my first experience with code, even though it was a beginners-level language.

From Class 6 to 8, I learnt Q-Basic, HTML, and VB.NET at school. I started learning coding from Hour of Code and Khan Academy.

Coding gave me a unique kind of fun: the fun of solving problems, working out algorithms and trying to make something new. Whenever I sit down to code, I am excited. Excited to see what new I'll be discovering this day, and what all I would learn. I decided that coding was meant for me, and that is what I should do.

My first breakthrough was with the Deep Cosmos Navigation System, a VB.NET/ Arduino C project to triangulate space rover positions. It was started by my friend Vinayak Jha. We won the Best Scientific Innovation at the 3rd Shri Hari VMPS Tech Fest.

The journey afterwards has been exciting. I started learning a variety of programming languages, including C++, Python, Java and Swift, and developing Android, iOS and Web apps. I started participating in competitions like SOF Let's Move It, CodeChef Monthly Cook Offs, Google India Code To Learn. Each success motivated me to go to the next level. Coding also encouraged me to explore fields such as Artificial Intelligence, Augmented Reality, and Graphics Design.

I have learnt a lot during this journey, and my computer teachers: Megha Ma'am, Promila Ma'am and Pragya Ma'am, as well as my parents have always supported me.

Computing is everywhere, and it is not going away. Coding is an essential life skill, it has been for several decades and it is becoming more important than ever to use coding to shape our world and our future. I wish to use code to change the world and make it a better place. I am certain that in the future, code will play an irreplaceable role in consumer, defence and governance spheres.

WHY ME?

If you wish to ask why me;
When you are feeling really blue
When the world has turned against you

And you don't know what to do,
When it pours colossal raindrops
And the road's winding mess,
And you are feeling more confused
Than you ever could express,

When the saddened sun won't shine,
When the stars will not again,
When you'd rather be
Inside your bed,
The covers pulled
Above your head,
When life is something
That you dread
And you wish to ask why me;

Then when the world seems right and true,
When rain has left gentle dew,
When you feel happy being you,
Please ask yourself why me; then, too

Deepika

XI-B

हमको तुम से है यह आशा

अपनी राह तुम खुद ही बनाना
अपना भविष्य खुद ही सजाना
इतनी मेहनत कर जाना
उम्मीदों से आगे अढ़ जाना ।

खुद पर रखना तुम विश्वास
तुम ही हो पूरे देश की आस
सबको होगा तुमपर नाज़
जब करोगी तुम महान काज ।

किसी की बातों में कभी न आना
कोई सताए तो उससे लड़ जाना
खुद की रक्षा खुद करके दिखलाना
मुश्किल घड़ियों में साहस दिखाना ।

हमको तुम से है यह आशा
देना न तुम हमें निराशा
ताकत और शक्ति की बनना तुम भाषा
हमको तुम से है यह आशा ।

– भाविका गोयल (11– G)

NEED FOR A POSITIVE OUTLOOK IN LIFE

-BY NUPUR PARASHAR

You cannot control what happens to you ,but you can control your attitude towards what happens to you ,and in that ,you will be mastering change rather than allowing it to master you"

-Brian Tracy

One of the things that makes an incredible difference in your life is your attitude .With the increasing differences in lifestyles chosen by masses and the wide ranging difficulties faced by people every day, a positive attitude has become a necessity in one's life. A positive outlook is a mental state that expects the best to happen. It is the habit of believing that things would ultimately turn out to be well and not allowing negative thoughts and doubts to disturb this belief. it has been proved that successful people tend to have a more positive outlook in life and rather than comprehending it as a punishment, they take it up as a challenge.

Positive people are easily approachable and more likeable than someone who constantly looks for negative things in life .In terms of networking opportunities, you are more likely to meet uplifting and beneficial individuals if you have a winning attitude and positive presence about you. A positive person is open to expanding their social circles to open the door to great opportunities.–

Adopting a positive outlook is not an easy task but one can at least practice some basic exercises to make one's mindset more positive, for instance: accepting rejection; using more positive words to describe yourself; figuring out solutions before pointing out problems; breathing exercises etc. One of the key factors of having a positive outlook on life is being conscious on self-worth. Every individual should regard and appreciate oneself. One should always have a positive stance towards themselves. Having a positive attitude does not necessarily mean acquiring pride it simply means appreciating small victories and prizes in life.

A positive attitude leads to happiness and can change your life. If you focus on the bright side of life, your life gets filled with light. This light affects not only you and the way you look at the world, it also affects your environment and the people around you. If this attitude is strong enough, it “becomes contagious. It is as if you radiate positive energy.

**Strength and growth come
only through continuous
effort and struggle.**

Napoleon Hill
