turning the invisible into visible**

सम्पादकीय

साहित्य समाज का दर्पण है। साहित्य समाज का पथ प्रदर्शन है। प्राचीन काल से लेकर वर्तमान काल तक यह कथन सत्य है कि सृष्टि की रचना पाँच तत्वों से हुई है – भूमि, गगन, अनिल, अनल और जल। आज मनुष्य ने ईश्वरीय देन प्रकृति को और इन पंचतत्वों को विज्ञान का सहारा लेकर असंतुलित कर दिया है। इसी असंतुलन का दुष्प्रभाव पर्यावरण पर पड़ रहा है और दिन – प्रतिदिन प्रदूषण बढ़ता जा रहा है। पृथ्वी पर बढ़ते तापमान के कारण (ग्लोबल वार्मिंग) स्थिति चिंताजनक हो रही है।

इसी समस्या के समाधान खोजने के लिए विश्वस्तरीय अनेक प्रयास किए जा रहे हैं। 5 जून को 'पर्यावरण दिवस' मनाया जाता है। यह समस्या केवल राष्ट्र और अंतर्राष्ट्रीय स्तर पर चर्चाएँ करने से हल नहीं होगी। इसके लिए जन जागरूकता लाना आवश्यक है। इस कार्य को करने में 'मॉडर्न विद्या निकेतन विद्यालय' भी प्रयासरत है। स्वच्छता, जल संरक्षण, पर्यावरण संरक्षण व धरती बचाओ आदि विषयों का पाठ छात्रों को पढ़ाया जाता है। इसके लिए अनेक गतिविधियाँ व कार्यक्रमों को अपनाया गया है, जैसे – वृक्षारोपण, सफ़ाई अभियान व नुक्कड़ नाटक आदि। किसी भी लक्ष्य को प्राप्त करने के लिए धैर्य और दृढ़ संकल्प की आवश्यकता है। अथर्ववेद में लिखा है 'माता भूमिः – पुत्रोऽहं पृथिव्याः' अर्थात् भूमि माता है। हम पृथ्वी के पुत्र हैं। अतः हम कोई भी ऐसा कार्य न करें जिससे भूमि को आघात पहुँचे। हम सभी को संकल्प करना होगा तभी धरती की रक्षा संभव है।

FROM THE COUNSELLOR'S DESK

With exploding digital technology in an increasingly connected world, parenting has become extremely challenging and complicated in the last few years. The good old concept of disciplining children is eroding from parenting landscape and the consequences are profound. Introducing discipline in your child's life is the down payment for his future happiness and well being.

Here are some tips to introduce discipline in your child's life:

- Set daily routine for effective habit formation. Make easy-to-follow rules and be firm and consistent with them.
- All parents share the instinct to protect their children but do not make your child an exception of every rule. Don't rush to rescue the child every time. Research says that adult happiness does not arise from parents bending the rules to a child's advantage; it comes from children learning the rules and conforming to them.
- How you react to any unacceptable behavior is important. Do not support the wrongdoings of children like there is no tomorrow. Children should not just be punished for any wrongdoing but should also be made to think about the ramifications of their actions. Explain that there is a consequence for everything and everyone needs to think about the consequences first before acting.

Discipline starts with self. As a parent, you are the role model by default. Have a close look of your priorities and preferences to set an example for your child.

With best wishes,

WHY IT'S IMPORTANT TO READ EVERY DAY

Books are everywhere. Libraries big and small, bookstores are splattered all over the large cities and small towns. Internet is flooded with information. Most of our daily reads center around tweets, Facebook updates, news items, direction on the latest gadgets and food packets but honestly this doesn't fill our need and appetite of reading.

If you are also one of those countless people who don't read apart from what their screen offers them to read, you might be missing out the fun of reading.

Reading helps in our cognitive development. No matter how much stress you have at work it all just slips away when you find a great story to read. A well written novel can transport you to other realms. Everything you read fills your head with new bits of information. The more knowledge you have, the better equipped you are to tackle any challenge you'll ever face.

At MVN, Sector-17 we try to provide the age appropriate content to our young readers through books, magazines, newspaper and journals etc. It is an endeavor to elevate the imagination, broaden the perspective and enrich the vocabulary of the children.
